

PIXMA iP1900

Inkjet Photo Printer

Photo Lab Quality

To satisfy the public's demand for a 4800 dpi printer, Canon Latin America, Inc., proudly presents the stylish and compact PIXMA iP1900, to deliver a high level of photo print quality at an affordable price. This printer combines Canon's ability to produce high-quality photos and documents, with a stylish design, that together make for a winning combination for the consumer.

Intuitive and easy-to-use, the PIXMA iP1900 makes home photo printing simple and fun. Stylish yet robust, the new model makes a great addition to any household.

Photo lab quality prints are ready in seconds. Employing Micro-Nozzles to fire ink droplets as small as 2pl onto the page, the maximum 4800x1200dpi resolution FINE print head delivers superior quality prints.

Combining precision with speed, the iP1900 delivers a 10x15cm (4"x6") borderless photograph in just 55 seconds. Impressive document print speeds are also achieved: 21/17 ppm.

This PIXMA 1900 is supplied with a FINE color cartridge and a separate black pigment ink cartridge. The combination ensures high quality printing for all types of output, including text and web documents, as well as photos. With the ChromaLife100 system, prints stored in an album last as long as 100 years, on select genuine Canon photo papers that resist fading for up to 100 years when stored in an archival quality photo album.
